Tallal Sajid *(Software Engineer)*

❖ Professional Summery

Motivated and detail-oriented Software Developer with hands-on experience in full-stack web development using React, Node.js, Express, MongoDB, and Python. Skilled in building scalable backend APIs, responsive user interfaces, and implementing authentication, testing, and cloud integrations. Possesses a strong interest in Artificial Intelligence and continuously explores AI concepts, tools, and Python-based solutions to expand technical expertise. Passionate about writing clean, efficient code and contributing to innovative, real-world software solutions.

❖ Education

Bs Software Engineering

Air University, Islamabad

❖ Experience

Feb-Jul,24 *Marketing Analyst and Backend Developer* at **Raqqamiyya** (Remote)

- Analyzed consumer behavior data to identify emerging market trends that informed targeted campaign adjustments and increased customer engagement.
- Developed and maintained backend APIs to ensure seamless data flow and improve system uptime for critical marketing platforms.
- Constructed predictive models to optimize budget allocation across channels, improving overall campaign cost efficiency and ROI.
- Implemented database schema improvements that enhanced data retrieval speed, reducing latency and improving real-time reporting accuracy.
- Monitored and reported on campaign performance metrics, enabling timely decision-making that boosted market responsiveness and competitiveness.

❖ Projects

- **Hostel Hub**
  A Website that will provide data of hostels to our users according to their needs and they will be able to book it online.
  MERN Stack environment, platform: Nodejs
- **Chat App**
  In this web based project we have created a Chat app used to chat with multiple users seamlessly.
  MERN Stack environment.

❖ Technical Skills

Programming (Python, C++, Java, React, Express, HTML, CSS, JS), Database (SQL, No SQL)

User behavior analysis Backend architecture API development SQL querying Market research

❖ Languages

English – C1 Advanced Urdu – Native

❖ Interests

Web Development AI Development/Training Software Architecture Designing/Development
